

## Jellyfish Craft

1. Decorate a paper plate with paint, glitter and any other craft items round the house!
2. Trim the paper plate to a 'jellyfish' shape and then turn it over.
3. Cover the freshly cut edge with a generous amount of PVA Glue.
4. Cut a number of strands of ribbon to various lengths.
5. Add the ribbon to the paper plate, ensuring they're nicely spaced out.
6. Finish off by cutting out a pair of white and black circles to create eyes and add them to the jellyfish.
